

Byakko Telephone Message from Masami-sensei – Monday, February 23, 2026

To all members, both the younger ones and those advanced in years, thank you from the bottom of my heart for continuing to pray so earnestly.

To bring peace to the world as it is now, and for all humankind to transcend borders, creating a world without boundary lines—without “this country” and “that country”—it is each one of you, all the members, who will create that world.

Because the prayers of the young, the middle-aged, and those advanced in years truly overflow from the heart, GOI-sensei in the divine world is also filled with joy.

No matter what the circumstances may be… even though there are those who suffer from illness and those who suffer because they have run out of money, things will surely get better. Because GOI-sensei is watching over you from heaven, please be at ease.

Thanks truly to all your prayers, I am well and energetic even at 84 years old… and before long I will be 85, yet I am able to walk properly on both legs, and while sending messages out to the world increasingly, I continue traveling throughout Japan.

Wherever I go, I pray and offer gratitude as I think of how there are always members there. Though we cannot meet physically, our hearts and prayers are completely connected.

Through this, Japan has finally become the center of the world. People from all over the world are gathering, saying, “Japan is truly a peaceful country.” This, too, has been drawn in by every member’s Prayer for World Peace. I alone can do nothing.

Therefore, each and every member’s prayer—whether you are ill, advanced in years, busy, or wherever you may be praying—your prayer, “May Peace Prevail on Earth,” spreads throughout the world, and within the hearts of many people the awareness that “all humankind is at peace,” and that “everyone is equal,” has truly taken root.

Therefore, with Japan at the center, from now on the world will become one. Borderlines will be removed.

This is thanks to your very presence, and to each one of you continuing to pray for all humankind from the heart and continuing to pray for and purify the suffering and sorrow of people.

There is no way I could do it by myself. I prayed together with many members. With the support of your strength, it became possible. And so, once again, to all members… those advanced in years, those who are ill, and the younger ones as well, I offer my deepest gratitude from my heart.

From here on, let us live together again. A good world will appear. Well then, goodbye.

Each one of you is completely protected by GOI-sensei, so there is no suffering or sorrow. Please be at ease. Goodbye.

That is all.
